# Creative Cloakrooms

The cloakroom might be the smallest room in the house but it's a space that shouldn't be forgotten about! It's an area that allows you to showcase your true sense of style through the patterns and colours you choose. Whether it's powerful patterns or soft neutral shades, it's easy to transform your cloakroom into a space that will never look out of place.

## KEEPING IT LIGHT

Light and textured surfaces will open up the corners of any cloakroom, whether it's the three dimensional patterns of *Cliveden* and *Kingston*, or the country-inspired high-gloss *Poitiers* collection. Try introducing a touch of colour to the space by pairing bold or pastel tiles with white.

# Marble Effect

The elegant look of marble works well in any style of bathroom, from traditional to modern, and will help you create a truly sensational scheme. Marble-effect tiles perfectly capture the beautiful patterns and veining seen in real marble, allowing you to achieve a luxurious look without breaking the bank. To add some personality, simply add a few vibrant accessories.

## LIGHT TO DARK

Marble isn't just limited to white, you can also explore darker shades in grey or black for a different tone in your bathroom. While white tiles create a bright atmosphere, the darker shades will deliver a grand elegance that makes your bathroom all the more luxurious.

## TEXTURAL TOUCH

Are you looking for a more textural marble-effect finish? Look no further than these three-dimensional designs which add depth and interest to bathroom walls.

# Textured

Bring your bathroom to life with an eye-catching statement piece using textured tiles! With a sense of depth and perspective in your room you'll discover how, when balanced with clean, plain tiles, the final visual is striking. Just adding a little texture can transform an unremarkable wall into a stunning feature of your bathroom design.

## Buxy

The hexagonal pattern of *Buxy* pairs beautifully with bright pops of colour, sprigs of greenery and an impressive basin – creating a picture-perfect space.

## HEXAGONS

Whether big or small, hexagons are a top-trend for interior design. To incorporate this six-sided wonder with subtlety, try the beautifully understated *Cliveden Concept* décor tiles.

## SPLIT FACE

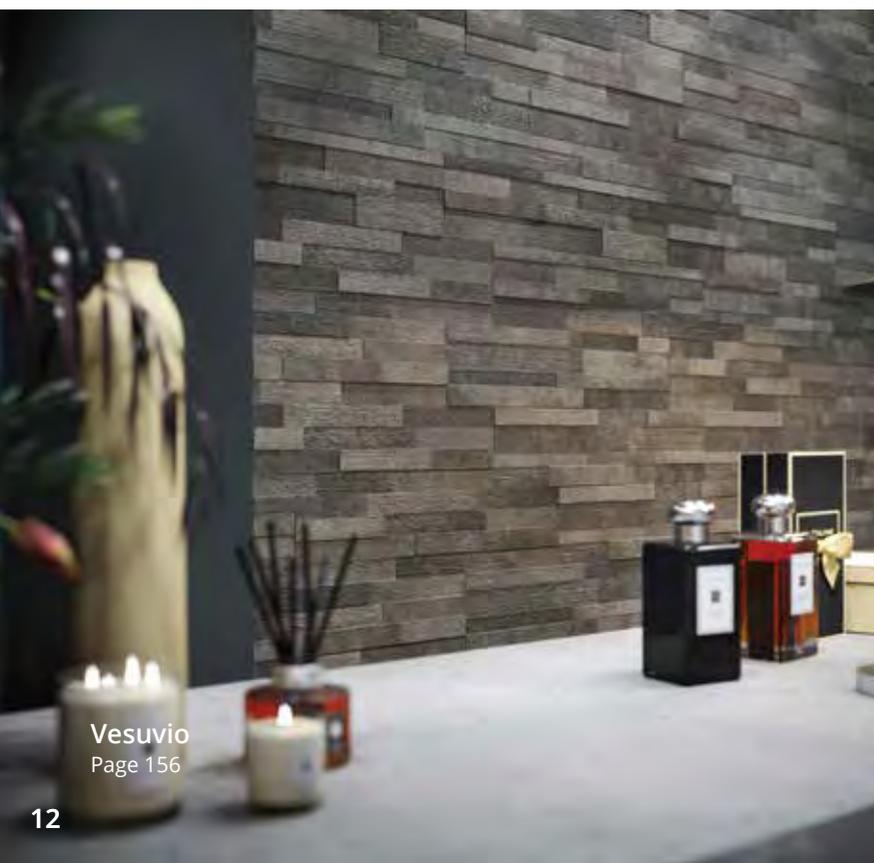

A natural fit thanks to its stone and wood textures, split face is a gorgeous addition to bathroom walls. The effect is reminiscent of exposed brickwork, with each tile showing mixed layers that combine to create a rustic mosaic. The shade variations add to the effect, creating a wonderful pairing of texture and tone.

# Patterned

Gone are the days when everything had to be white or neutral, now is the time to be more adventurous with your choices! As the latest interior trends have encouraged a more confident approach to colour and pattern, decorative tiles have become a design must-have, instantly transforming your interior.

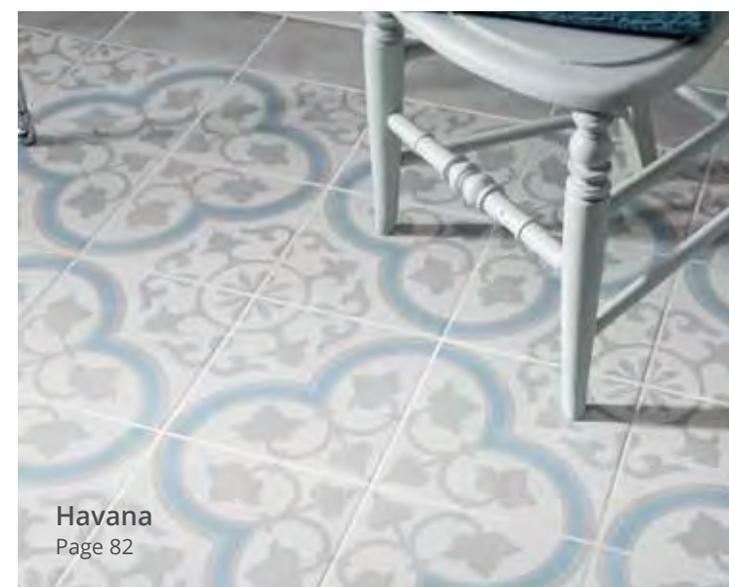

Varadero

## BRIGHT BLUES

Feeling blue? You're not alone! Blue is enjoying the spotlight in the world of interiors thanks to its refreshing tone which easily brightens up your bathroom. Bring some cool blue shades into your scheme with the patterned *Arles* wall tiles or the Victorian-style *Havana* collection.

## FEATURE FLOOR

A statement floor with a detailed patterned will draw your eye to key features in your bathroom, like a free-standing bath or walk-in shower space. You can even zone the space with coordinating plain tiles around the perimeter, such as the sumptuous green shades of *Contrasti*.

# Metro

BRICK

You can't beat the classics! Taking inspiration from the shape of tiles in underground subways, metro brick is a timeless and versatile design. There are plenty of options too, from flat to bevelled, and handcrafted effects or contemporary matt finishes. Experiment with your style and see where the metro style takes your new bathroom.

## PLAYFUL PATTERN

When tiling your bathroom walls with metro brick tiles, consider your layout style – choose anything from simple, classic brick patterns, interesting vertical designs, trend-setting herringbone compositions, or even step away from the norm with a showcase angled layout.

# Large Format

Large format tiles have been a must-have for the last few years, and the trend shows no signs of slowing down. Using large format tiles on your bathroom walls or floors not only gives you a more continuous and seamless look, it also means fewer grout lines, so your surfaces are easier to clean and maintain. A stunning look that saves you time? Sounds like a winner!

## Marmorì

If you're seeking a sleek and luxurious finish on a budget, consider tiling halfway up your walls with a large format design.

## STYLE SHOWCASE

Large format tiles show off the textures in the tiles with great effect, particularly the exquisite markings and veining of marble-look tiles. The realistic stone patterns stretch across the entire surface and keep focus on the design.

# Natural Stone

## EFFECT

The bathroom is a place to relax and should exude spa-like vibes to help you switch off at the end of a long day. Achieve this look in your own bathroom with natural stone-effect tiles which capture the essence of real natural stone, but without the extra maintenance required for the real thing. Whether you love the look of marble, travertine, limestone or slate, there's a tile waiting to deliver your dream bathroom.

### CHISELLED STONE

For a modern twist on a classic look, explore three-dimensional stone-effect décors and textured split-face designs which add depth and interest to your walls and draw the eye to key features in your bathroom.

Knole  
Page 116

# Wood EFFECT

Everyone loves the look of wood, and wood-effect tiles are an impressive and affordable alternative to the real thing. Each tile has a textured matt surface with realistic grains and knots, but since it's porcelain you can be confident knowing this product won't need to be treated, sealed and sanded like natural materials. These tiles are more durable than real wood, and will deliver the urban chic or Scandinavian cabin vibes you're craving.

## Aspenwood

Wood-effect tiles can also be used on bathroom walls to zone the space or create a cosy, rural setting reminiscent of Scandinavian log cabins.

## A BIT PARQUET

A traditional flooring layout that's highly sought after, small format wood effect tiles lend themselves very well to a classic herringbone pattern. The *Sherwood* collection is the ideal size for showcasing this vintage style of feature flooring.

Sherwood

# Mosaics

Nothing brings flair to your bathroom quite like mosaics. Whether it's colour or pattern you're looking for, a statement mosaic is a superb way to realise your design ambitions. With contrasting designs made of glass, metal, stone and porcelain in a wonderful variety of shapes and styles, they're perfect for creating a unique and impressive aesthetic in your bathroom.

You can even use mosaics inside wall niches and add mood lighting, or use full mosaic sheets to create superb splashbacks.

Some mosaics are also suitable for tiling wetroom floors, with their numerous grout lines providing all-important slip resistance.

Mosaics

## TRULY VERSATILE

Did you know mosaics are perfect for creative flourishes in the bathroom? Most mosaics are supplied on a mesh sheet that can be fixed onto curved surfaces or cut and used as a border; an ideal way to complement your wall tiles.

## NATURAL VIBES

The cottagecore trend is also all about embracing nature, and wood-effect tiles are perfect for adding warmth to your kitchen. The *Aspenwood* range in particular recreates the distinctive texture and charm of fresh wood.

# COLOURFUL

Make the heart of the home stand out from the rest with kitchen tiles in chic, colourful finishes. The most important room in any home, the kitchen should be carefully designed to inspire. It's the backdrop to our daily lives, so it should reflect our true sense of style, whether that's bold compositions or delicate pastel tones.

# SPLASH BACK

Practical as well as stylish, a splashback is an integral part of the kitchen that ties your overall look together. As people become more daring with their style, an eye-catching splashback is also an ideal way to show some design flair! Bold colours, intricate patterns, or 3D textures... From your tiles choice to the layout and pattern, you can add a splash of personality into your kitchen.

## GROUT ON TOP

The colour of your grout has a big effect on the look of your tiles, especially on a focal point like a kitchen splashback. A contrasting shade will emphasise the tile layout, while a similar colour will unify the overall look. For more advice on choosing your grout colour see page 182.

## THE HEX FACTOR ▶

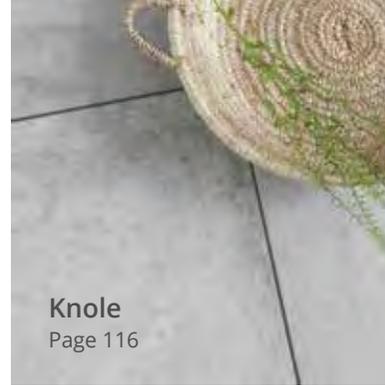

Create a truly distinct splashback with the geometric shapes and patterns of the *Varadero* hexagon collection. The subtle honeycomb shape, combined with fresh mint and light grey hues, provides the perfect backdrop for an active kitchen.

## BIGGER & BETTER

Large format tiles are a popular kitchen flooring choice if you're looking to create a contemporary, elegant open plan environment for your kitchen and dining area. Fewer grout lines give a smooth, sleek overall look, which has the added bonus of also being easy to clean!

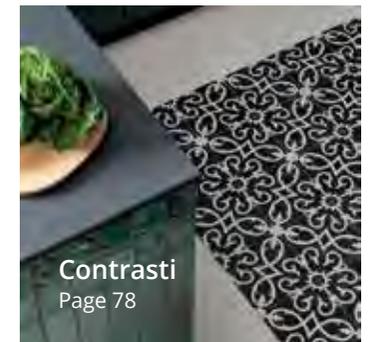

## POWER OF PATTERN

Patterned tiles will revamp your kitchen with characterful charm. Bold intricate patterns, like those in the beautiful *Contrasti* collection, are perfect for classical schemes, whilst the delicate detailing of *Havana* brings a softer approach to traditional homes. Or for an ultra-modern look, go for the hexagon-shaped *Varadero* collection.

# FLOOR TILES

Even if you're not a keen cook, it's likely you'll spend a lot of time in your kitchen, as will the rest of your family. Pets, muddy boots, messy food and high heels are all things to take into account when choosing your kitchen flooring. Floor tiles are an extremely durable, long-lasting solution to a busy kitchen, as well as offering a range of distinct style choices. Whatever look you're going for, you'll find a floor tile that delivers a superb look and reliability for years to come.

# Maximalism

After years of minimalism, now is the perfect time to take the plunge and decorate your home with a lively colour palette and eye-catching patterns. Maximalism embraces the idea that 'more is more!' Think statement tiles with characterful paintings, bold accents and eye-popping furnishings. Each of these additions will create that inviting and inspirational feel across your home.

# Living ROOM

Tiles may not be your first thought when it comes to styling your living room, but they can provide both durability and elegance to make your living space something truly special.

Whether it's wood-effect floor tiles or decorative décors for a feature wall, tiles offer a breadth of design choice that's unrivalled. Plus, you can add that all important finishing touch with underfloor heating for a wonderful warm feeling underfoot whatever the season.

## FEATURE WALLS

Statement pieces can define a living space, and a feature wall is the go-to choice to add a great focal point. Decorative tiles are a striking choice when transforming your room, with textured, patterned and colourful tiles all ideal for that pop of personality. Consider the rich hues of *Titan*, or the crackle-effect of *Handcrafted*; wonderful designs that will elevate your scheme.

# Open Plan LIVING

With the rise in popularity of open plan living, people are now choosing to cook, relax and entertain in the same space. This creates an opportunity for a cohesive design flowing throughout your home and has seen an increase in demand for large format tiles, bigger and better than ever before. This style creates a unified feeling of continuity, which can help to make your space appear larger than it really is.

Marmori

## SEAMLESS STYLE

Larger tiles are particularly appropriate if you are looking to create a contemporary and elegant open plan environment for your kitchen and dining area, as fewer grout lines mean a smoother and sleeker look overall. Choose tiles in lighter shades of grey or cream to make a welcoming space you'll love to spend time in.

# Hallway

Hallways aren't just there to take you from room to room, they're the first area you see when you open your front door and therefore have the potential to make a real impact. Create a lasting first impression with statement style choices such as patterned floors and rich colours. With porcelain tiles, you can also be assured your feature flooring will withstand a busy household.

## MAKE AN ENTRANCE

For those keen to achieve a modern twist without overpowering the entrance, the blue and white tiles from *Havana* add an effortlessly minimalist finish to the modern home. Or embrace a monochrome palette of white, silver grey and bold black with *Cuban*.

# TILE TRIMS

Tile trims not only protect the exposed edges of your tiles, they can look great too!

Choose from a range of colours, finishes and shapes to complement or contrast your choice of tiles for an enhanced finish. From classic white PVC, to modern and sleek brushed silver, we have a range of trims to suit any project.

Use around windows and sills, the edges of splashbacks in your kitchen or to hide any raw join or transition in your tile layout, reducing the need for mitred tile cuts and sharp hazardous edges.

Our PVC and metal trims are quick and easy to install, hard wearing and durable, with corner pieces available to ensure a seamless finish. We also have a range of stone-effect trims which match the look of stone-effect tiles.

# GROUT AND SILICONE

## White

For a clean look, white grout and silicone are sure to deliver the crisp finish you need. Light grout and silicone will blend well with tiles in similar shades and contrast with colourful or dark tiles. Consider whether you want to emphasise your tile layout pattern before selecting a colour.

## Cream and beige

The warmer shades of cream and beige grout are ideal for a traditional look and contrast well with richly coloured tiles such as *Poitiers Indigo* (above). Natural stone and wood-effect tiles in beige and brown tones coordinate well with these colours if you're seeking a cohesive look.

## Dark colours

To really make white or light coloured tiles stand out, pair them with a dark coloured grout in grey or black. The monochrome look is simple, effective and will easily add drama to your tiles. Dark coloured grout is also ideal for tiles in similar shades if you wish to focus on the look of your tiles rather than layout.

## Matching grout

From white and beige to grey and black, every shade of tile can be closely matched to a grout and silicone colour. Choosing a matching grout will keep the emphasis on your tiles, and create a seamless look which flows undisturbed across your walls or floor.

## Colourful grout

Bring some flair to your design with a bold coloured grout to either contrast or complement your choice of tiles. A colourful grout can add zest to a plain white tile or blend seamlessly with a vibrant choice such as *Dyroy Blue*.

## Floor tile grout

As with wall tiles, the colour options for grouting floor tiles are plentiful. Carefully consider the type of foot traffic your tiles will be exposed to when selecting a colour. Darker shades will discolour less quickly and are better suited for areas with outdoor access.

# GUIDELINES

## Glazed ceramic tiles\*

The most common type of tile, glazed ceramics possess specific technical properties and a glaze coating that physically and hygienically protects the tiles. The base is clay-based and porous; bucket cement is normally used to fix these tiles. They are used internally on walls and floors. In general the floor tiles are thicker, hence stronger, as they carry weight and more traffic. Cutting is via scoring the ceramic surface and then by snapping using pressure. Tile cutters are readily available. Tiles are available in many different sizes and thicknesses. Designs and colours can be applied during the firing of the tile, making these a very common and adaptable internal tile.

## Porcelain tiles\*

Porcelain tiles are very durable, low porosity tiles suitable for domestic and most commercial applications. They can be fitted to walls and floors however always check to ensure that the wall can bear the weight of these tiles. Always fix porcelain tiles using cement-based adhesive; an example is BAL Single Part Flexible. Plaster board and plaster walls must be primed before fixing for example using BAL Prime APD. As an extremely hard material cutting can be a problem, for best results cut these tiles with a diamond bladed wet saw. Due to their very low absorbency (vitrified or fully vitrified) porcelain tiles do not normally require sealing. Polished tiles however have a slight degree of microporosity as a result of the polishing process. If used in areas subject to a high level of spillage, polished tiles can be sealed to further protect. Matt tiles can also be sealed in high-risk areas, e.g. light coloured tiles installed on commercial kitchen floors.

## Glazed porcelain tiles\*

Porcelain tiles with an opaque to transparent coating that have been fired to the tile biscuit. This type of tile has a vitreous covering on the face of the tile, which is fluid impermeable.

## Polished porcelain tiles\*

Shiny surface of un-glazed tiles, achieved by mechanical polishing at the final stage of production. We recommend sealing polished porcelain tiles for extra protection.

## Rectified tiles\*

A rectified tile has been mechanically cut to size after the firing process. This process creates a precise edge and, as a result, can be laid with a tighter grout joint than an unrectified tile. Great care must be taken when fixing to ensure tiles are fixed flat and not lipped.

## Glass mosaics\*

Glass mosaics are suitable for walls in all internal installations and for domestic bathroom floors, where they will only be subject to light foot traffic. In some ranges a slip resistant 'grip' finish is available for wet floors such as walk-in showers. Glass mosaics should always be fixed with white cement-based adhesive, eg: BAL Mosaic-Fix. For fixing to plaster and plaster board, the surface should be first primed with BAL Prime APD or similar. Glass mosaics are supplied in sheets and when fixing the fabric mesh goes towards the wall, setting them in line to obtain a correct vertical and horizontal meeting of joints. Tap the surface of the mosaics with a rubber float to ensure adequate adhesion and flatness.

Some glass mosaics may be supplied with brown paper sheets with or without a fabric mesh. These are fixed in the same way, but with the brown paper facing out. When the adhesive has set, wet the paper thoroughly with a sponge and peel the paper off holding one corner. Please be aware that due to the translucent nature of glass mosaic, final colour and shade of the fixed material can vary especially depending on the lighting and location of the tiles.

## Wood burner / fire surrounds\*

Ceramic tiles are suggested for use on wood burner and multi-fuel stove surrounds, hearths and chimney breasts as a decorative feature only. These tiles should not come into close contact with heat source or naked flames. This is a suggestion only and we advise to check the specific suitability of tiles and associated fixing products prior to installation.

## Tile thickness

Tile thicknesses quoted are correct at the time of going to press. However, manufacturers do make changes and if this is particularly important for you, please check before ordering.

## Frost resistant tiles

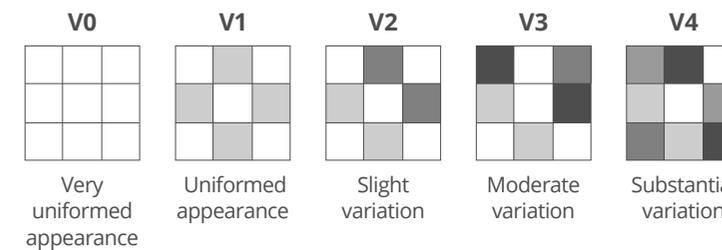

Tiles specifically designed by the manufacturer to withstand freezing/thaw conditions. Hence suitable for exterior applications exposed to the elements, high humidity and very low temperatures.

## Crazing

A fine hairline cracking which sometimes appears on the glaze of the tile. This is usually caused by tensile stress between the tile biscuit and glaze. This may have been intentionally produced for artistic effect.

## Shade variation

Shade variation is an inherent feature of some ceramics and it is therefore imperative that you visually check blends prior to fixing. Care should always be taken to ensure that sufficient tiles are purchased within the same batch to complete the job, as no claims for variations or quality can be entertained after fixing.

- V0** Pieces of the same shade value are very uniform and smooth in texture.
- V1** Minor variations in colour and / or structure for a restful, natural effect.
- V2** Clearly distinguishable differences in texture and / or pattern within similar colours.
- V3** While the colour and / or texture on a single piece of tile could be indicative of the colour and / or texture on the other tiles, the amount of colour and / or texture variation on each piece may be significant.
- V4** Random colour and / or texture differences from tile to tile, so that one tile may have totally different colour and / or texture from that on other tiles. Thus, the final installation will be unique.

## PEI ratings (floor grade)

The construction and qualities of tiles differ greatly. One classification that influences / affects where to use specific tiles is Abrasion Resistance PEI ratings.

Below are four different classifications:

- 2** Light traffic. Suitable for residential wall use and bathroom floor applications.
- 3** Light to moderate traffic. Residential wall and floor use.
- 4** Moderate to heavy traffic. Residential wall and floor use with external access.
- 5** Heavy traffic. Suitable for all residential wall and floor use with external access.

Please note: We would recommend the use of a door mat within a mat well to all external doors.

## R ratings (anti-slip grade)

The R rating of a floor tile refers to slip resistance and how safe it is to use in environments where the floor is inclined or likely to get wet. R ratings are mainly considered when fixing tiles in a commercial or public space but have been included in this brochure where available for reference. The lowest rating available is R9. The classifications are as follows:

- R9** Slip likely to occur between 3°-10° incline. Suitable for entrance areas, stairs, dining rooms and living spaces.
- R10** Slip likely to occur between 10°-19° incline. Suitable for toilets and wash rooms.
- R11** Slip likely to occur between 19°-27° incline. Suitable for domestic kitchens / small commercial kitchens.
- R12** Slip likely to occur between 27°-35° incline. Suitable for domestic kitchens / large commercial kitchens.
- R13** Slip likely to occur over 35° incline.

\*We strongly recommend the use of a professional tiling contractor for your installation.
